**Respected my AstroFriends !**

My Hearty welcomes to you to this wonderful “Nadi System! I dedicate this Book to my Grandparents (Late) Smt Bholi Devi & Shri Om Prakash Sharma and to my Guruji Pt. R D Vashishtha (Ret. Executive Engineer)!

EBook Edition: 2017 July. For the benefit of all the Astrology friends who are interested in learning this wonderful ancient knowledge I have not fixed any price to this Ebook!

But for learning a system, a Guru Dakshina is required! Hence you can pay ANY amount of contribution to me! Payment details will be provided further on request.

## Nadi Jyotisha

Jyotisha (Astrology) is an integral part of Hindu Culture. When we talk about Astrology, Horoscope (JanmaKundli) comes in mind. Horoscope Casting and its analysis are two important section of Astrology. Horoscope casting involves Astronomy and Geography along with required mathematical calculations. While, Horoscope analysis has own system and sutras.

Horoscope analysis has further different discipline like “**Parashari**”, “**Jaimini**”, “**Nadi**” & “**KP Paddhati**” etc.

Nadi Stream is further classified like **Bhrigu**, **Dhruva**, **Saptarishi**, **Vasistha**, **Chandra Kala & Nandi Nadi** etc. Each Nadi discipline has some basic Fundamental or Axioms.

In this Book, I am going to share my studies, views, experiences on the bases of Bhrigu Nadi, Nandi Nadi, Saptarishi Nadi, Chandra Kala Nadi, Meena Nadi etc.

I am hopeful that this work would be helpful for astrology learners, students and astrologers.

If you have genuine technical query, I will try my best to reply, but I cannot make any promise in this regard. Also, personal queries will not be entertained.

## How to Proceed with Nadi Jyotisha?

There are different Schools of Thought in Jyotisha like Parashari, Jaimini, KP, Nadi, Palmistry etc... where each one have own Unique Methodology, but the ultimate goal/destination is to analyse with maximum accuracy. NadiJyotisha is one of the oldest schools thought in Jyotisha, which further have many branches where each one deals with a specific methodology.

In our discussion, I am following: SaptarishiNadi, Bhrigu Nandi Nadi, MeenaNadi etc. MeenaNadi is more Navamsha Methodology based while Nandi Nadi, SaptarishiNadi&Bhrigu Nandi Nadi are more Karkatva based.

Some Basic Questions which need attention are:

### 1. Ayanamsa: Which one Ayanamsa should be followed?

Presently, I advocate Lahiri Ayanamsa to avoid any confusion. Advanced students can also experiment with "Surya Siddhanta".Geocentric Positions of Planets & Mean Nodes should be used. Advanced students can also experiment with other options.

2. For Meena Nadi, follow the Navamsa method and other rules strictly as per Book. Later on, advanced students can do experiments with other methods.

3. Bhrigu Nandi Nadi& concerned Texts (as made available by Late Shri R G Rao) are sufficient for beginners. In Bhrigu Nandi Nadi, each Planet's Karktavas (Significations) are given utmost importance. Also, Progression & some additional features...which are the basic Rules...that I have already shared and discussed (PDF Files, Audio & Video Lectures) in my discussion with learners.

4. Saptarishi Nadi is almost similar to Bhrigu Nandi Nadi.

5. Next, Nadi Jyotisha basically uses the natal position of each planet/sign wise along their exact degrees.

6. Ascendant is not given much importance in Bhrigu Nandi Nadi Jyotish Texts. It has its own logic which, I will discuss later on. One thing, I would like to make clear that it does not mean the **Ascendant** has no Importance.

At advance level and also to cast horoscope ascendant is the Key and necessity to understand Nadi Jyotisha.

7. Vimshottri Dasa System is very commonly known to all of us as per Parashari, Jaimini and other Schools of Thought. Vimshottri Dasa System is itself a type of Progression where Natal Moon is Progressed from its Natal Position in Nakshatra in a mathematical well defined process. Here, Moon is Progressed from Natal Nakshatra to next Nakshatras, where each Nakshtras is assigned a fixed Years duration (at Macro & Micro Level i.e. MahaDasa, AntarDasa etc.) based Progression duration according to Planetary Lordship of Nakshtras. In Nadi Astrology, similarly Progression of Planets is given utmost importance where Progression period is mainly dependent of average time (years) taken by a Planet to complete one transit of whole zodiac i.e. 12 Signs. For example, Jupiter on an average takes 12 years to transit the whole zodiac, so Jupiter's Progression per Cycle per 30 Degrees is considered of 12 years duration.

8. In my discussion, I always suggest to learn Nadi Jyotisha in a systematic way under someone who is expert or familiar with Nadi Jyotisha.

Astrological Researches Group

## **Steps for Starting the process**

First of all, always note the “Disciplines/Rules” of “The System” which one you are going to follow. Like, I am following Saptarishi Nadi, Bhrigu Nandi Nadi, Meena Nadi etc. where:

- Meena Nadi is more Navamsha Methodology based while
- Saptarishi Nadi & Bhrigu Nandi Nadi are more Karkatva based.

Follow the basic Lagna chart calculation as per Parashari System and Note down each Planet's:

- Sign & exact Degrees,
- Direction of Motion for Each Planet, like Direct, Retro or Stationary
- Speed,
- Combust or not,
- Planets in Trine,
- Planets in opposition,
- Mutual distance between planets,
- Mutual placement of planets,
- Conjunctions,
- Aspects as per Nadi methodology,
- Directions as per Sign occupied by each planet

**Note: Do not Jump to next step without understanding previous one.**

Now, arrange all Planets in their respective Directions as per Sign Occupied by them in Natal Chart. Now Proceed with Progression for analysis of Chart. In upcoming Chapters, above said points will be discussed in detailed, with supportive examples and charts.

**Note: Do not mix Progression with Transit as both are different concepts.**

**Nadi Astrology  
Rules**

**Astrological Researches Group**

## **Chapter:1 ~ Karkatva of the Nine Planets**

Nadi Astrology follows certain rules / axioms like Karkatva, Directions, Aspect, Retrogression, Sign Exchange, Progression and Transit etc.

Among, above mentions some basics Rules, I will share my views on Karkatva (Signification) in this chapter.

Each Planet is supposed to have certain basic features/qualities which influence *Humanly Affairs* under Karma Theory. The features/qualities of each Planet are further dependent on Elementary, Mythological, Astrological and Astronomical views related to that planet. Each planet has been assigned certain fixed Significations or Karkatvas, depending upon their features/qualities or elementary nature. It's difficult to proceed with Nadi Astrology without knowledge of Significations or Karkatvas of each planet.

For example: In case of Twin Birth, both natives have almost similar Horoscopes, but if we consider Karkatvas, then it becomes very easy to analyse horoscopes for both Natives. In case of twin male natives, Jupiter remains Jeeva Karka, but to further differentiate among Elder and Younger nativity, we consider:

- Elder as: Jupiter (Jeeva i.e. Life) + Saturn (Karka of Elder Brother).
- Younger as: Jupiter (Jeeva i.e. Life) + Mars (Karka of Younger Brother).

**Planet and concerned Humanly Relationship Significations (or Karkatva as follows):**

1.	Sun	Father, Son (also 1 <sup>st</sup> Son), Father-in-Law
2.	Moon	Mother, Elder Sister, Elder Sister-in-Law, Mother-in-Law, Maternal Uncle's Wife, Mother side relations, 3 <sup>rd</sup> Wife

3.	Mars	Husband (in case of Female Nativity), Brother (2 <sup>nd</sup> ), also 2 <sup>nd</sup> Son, Younger Brother-in-Law, Younger Paternal Uncle, Son-in-law, All Paternal side Relations
4.	Mercury	2 <sup>nd</sup> Wife, Younger Brother (3 <sup>rd</sup> ), Younger Sister (3 <sup>rd</sup> ), Friends, Close Friends, Girl/Boy Friend, Lover, Maternal Uncle, Father-in-Law*, Younger Daughter-in-Law
5.	Jupiter	Jeeva Karka for Male Nativity (i.e. Self), Guru, Guide, Eminent Person (प्रतिष्ठितव्यक्ति), 2 <sup>nd</sup> Husband,
6.	Venus	Jeeva Karka of Female Nativity (i.e. Self), Wife, Daughter, Younger Sister (2 <sup>nd</sup> ), Elder Daughter-in-Law, Sister-in-law, Younger Paternal Aunt, Prostitute**
7.	Saturn	Elder Brother, Father's Elder Brother, Servant, 3 <sup>rd</sup> Husband
8.	Rahu	Grandfather ~ Pitrus (Paternal)
9.	Ketu	Grandmother ~ Pitrus (Maternal)

Some important views:

1. Venus, Moon\*, Mercury\*, Saturn\* & Rahu\* are considered for Female Nativities...but each one governs different type of Female Nativity... depending upon (R~BAY Rule\*\*) with Native. Note: Venus is unconditional Female Planet.
2. Sun, Mars, Jupiter, Ketu\*, Saturn\* & Mercury\* are considered for Male Nativity but each one different type of male nativity... depending upon (R~BAY Rule\*\*) with native.
3. Sun, Mars and Jupiter are unconditional male planets.
4. Moon, Saturn & Mercury behave according their condition in natal chart... as follows:
  - In Male Nativity, alone Moon will act as Female\*.

- In Male Nativity, alone Saturn will act as Female\*.
  - In Male Nativity, alone Mercury will act as Female (Like 2<sup>nd</sup> Wife)\*.
  - In Female Nativity, alone Moon will act as Male\*.
  - In Female Nativity, alone Saturn will act as Male\*.
  - In Female Nativity, alone Mercury will act as Male\*.
5. Saturn & Mercury are known as Eunuch but, in real, they are not Eunuch. Look at both's age and medical conditions. Further, under which age cycle both are running, also need attention. Ketu is also known as Eunuch but that also conditional.
  6. Rahu & Ketu also behave according to their Condition in Natal Chart. Both have dual nature and further react to the surrounding situation and modify their behaviour according to adjacent Planet as per BPHS Rules.
  7. Ketu has special influence on nativity & will discuss in detail in next Chapter.
  8. Also, check: Mercury as Male or Female~ When?  
Mercury is known as Eunuch Planet or in better sense Mercury should be considered as "Hermaphrodite (द्विलिंग)". Mercury without Sun (i.e. out of Combust Range/Degrees) acts as Female! Mercury is has a specialty that: The angle of the maximum elongation (east or west) for Mercury is between 18° and 28°. Within range of 14 Degrees with respect to Sun is considered as combust.

## Chapter: 2 ~ Signs & their ruling Directions

Each Sign have been assigned a Direction as shown in below picture. Directions are helpful to group the Planets and further to analyse results of Planet/s in same direction. The 12 Signs are grouped in 4 directions as follows:

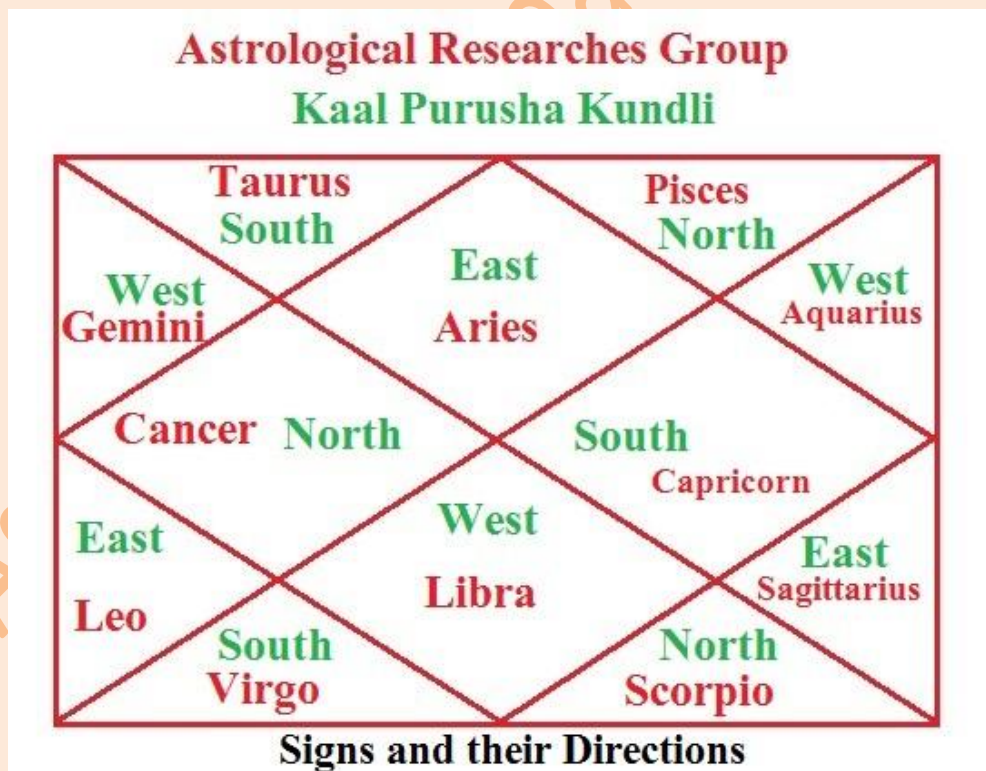

East Direction: Aries, Leo & Sagittarius

South Direction: Taurus, Virgo & Capricorn

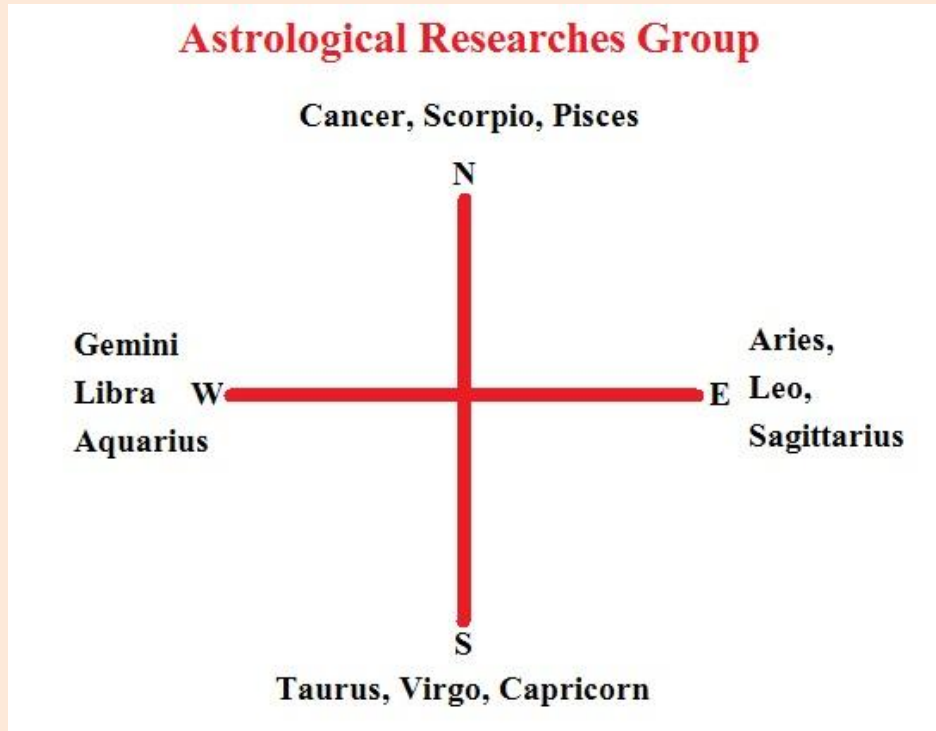

West Direction: Gemini, Libra & Aquarius

North Direction: Cancer, Scorpio & Pisces

Sample Chart: 1

Sample Chart: 2

Arrange all the Planets according to Directions as per 2<sup>nd</sup> Chart to analyse a Horoscope with Nadi Rules. It's helpful to easily judge the mutual impact of Planets. Same Direction/Trines Planets influence each other with 75% Strength as they share same Elementary Nature. Why not 100%? Further clarification will be given in upcoming publications.

### **Gender of 12 Signs:**

As per Shri R G Rao, the 12 Signs are further grouped as:

\* **Male Signs:** Aries, Scorpio, Leo, Sagittarius, Capricorn & Pisces.

\* **Female Sign:** Taurus, Gemini, Cancer, Virgo, Libra & Aquarius\*.

Sun, Mars, Jupiter & Saturn ~ these four Planets are considered as Male for above said Gender based divisions of Signs. Venus, Moon, & Mercury ~ these are considered as Female Planets.

*Further, except unconditional Male & Female Planets (i.e. Male: Sun, Mars & Jupiter and Female: Venus)... other Planets: Saturn, Mercury, Moon, Rahu & Ketu, in alone, also adopts the masculine/feminine quality of the Sign*

*occupied by them in natal Chart but this feature does not remain permanent and further get modified as per Cyclic Progression.*

Note:

Leo (Sun ~ Male) ~ Aquarius (Saturn ~ Male). So, how Birth can have? Who will be Female among Sun & Saturn? Here, Aquarius Sign symbolise an empty Pot! Inside Pot, there is Darkness or Shadow (or छाया i.e. 2<sup>nd</sup> wife of Sun). Saturn was born from Sun & Chhaya.

Further, these Five Female Signs: Taurus, Gemini, Cancer, Virgo & Libra are termed as “**PanchaKanya**”.

***Aquarius Sign is considered as Conditional Female Sign.***

In case of Cancer-Capricorn, Moon is considered as Goddess Parvati & Saturn is considered as Lord Shiva.

**Astrological Researches Group**

## **Chapter: 3 ~ Aspect & Conjunction**

There are different Schools of Thought in Astrology, Where each school follows certain fixed rules. How Planets influence each other? This is one of the key concerned areas of predictive astrology.

In Nadi Astrology, "Mutual Placement, Aspect & Conjunction" are important Factors, while judging the Strength and Productivity of Planets in a Horoscope:

- 1 Aspect ~ दृष्टि
- 2 Conjunction ~ युति
- 3 Mutual Placement ~ पारस्परिकउपस्थिति

The 12 Signs are connected in a closed Chain Cycle like as shown on below picture. Further, these 12 Signs are also categorized on Direction basis. ***"It's the Mutual Placement of Signs along with Direction of Signs & Direction Motion of Planets which need to be checked to analyse the Influence of Planets on each other"***.

### **4. Mutual Placement further involves:**

1. **Adjacent Houses/Signs**
2. **Planet/s in 7<sup>th</sup> House/Sign**
3. **Sign-Exchange**
4. **Trine House**
5. **The 6<sup>th</sup>-8<sup>th</sup> Placement (i.e. षडाष्टक).\***
  - **\* The 6<sup>th</sup>-8<sup>th</sup> Placement (i.e. षडाष्टक) is not a direct feature of Nadi Astrology. But, it holds importance.**

### Mutual Placement

All the Planets are arranged according to Directions as per above said 2<sup>nd</sup> Chart to analyse a Horoscope with Nadi Rules. It's helpful to easily judge the mutual impact of Planets.

**Rule 1: Planets influence each other by means of "Mutual Placement". Further, Mutual Placement and its impact are studied by means of: "Conjunction & Aspects".**

- 4 1 (a): Same Direction/Trines Planets influence each other with 75% Strength as they share same Elementary Nature as shown below in picture. Why not 100%?

## Astrological Researches Group

Pisces	<b>1st</b> Aries	Taurus	Gemini
Aquarius	Mutual Aspect between Planets positioned in Trine Houses or same Directions is of 75% Strength.		Cancer
Capricorn			Leo <b>5th</b>
<b>9th</b> Sagittarius	Scorpio	Libra	Virgo

### Mutual Aspect

- East ~ Aries, Leo & Sagittarius
- South ~ Taurus, Virgo & Capricorn
- West ~ Gemini, Libra & Aquarius
- North ~ Cancer, Scorpio & Pisces
- One should make combinations of Planets on Direction bases.
- Final placement of Retro Planets will discussed in separately.

5 1 (b): Planets in Adjacent Houses influence each as shown in below picture:

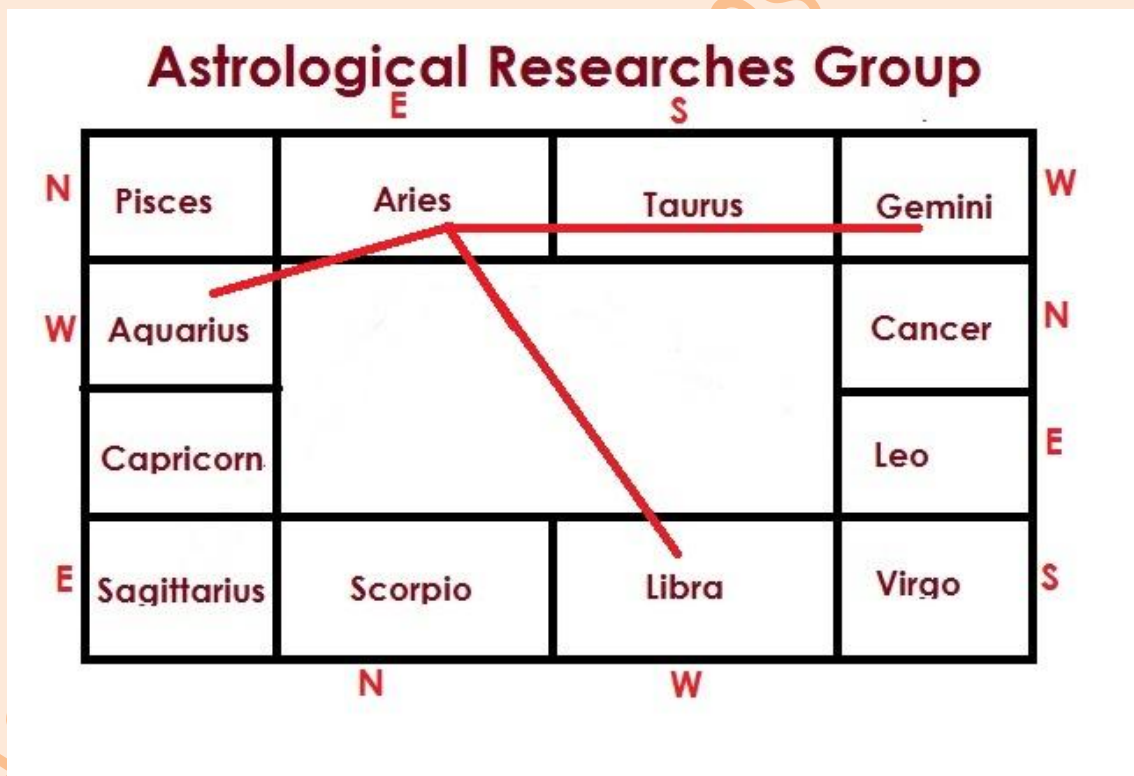

## Astrological Researches Group

Adjacent Pisces	Source Aries	Adjacent Taurus	Gemini
Aquarius			Cancer
Capricorn			Leo
Sagittarius	Scorpio	Libra	Virgo

### Adjacent Houses

Planets in Adjacent Houses/Signs are dependent of their Direction & Speed to experience their influence on immediate next Planet/House/Sign. Without knowledge of Direction & Speed of Planets... can results in totally wrong analysis. Direction and Speed have Key role in Mundane Astrology. Stationary Planet ~ स्थिरग्रह (When a Planet Changes its Direction to become -> Direct or Retrograde seems Stationary for some time period) also a Key Factor to judge the strength of influence of Source Planet.

- 6 1 (c): Planet in 7<sup>th</sup> house (also Planets in its Trine Planet/s) influences the Source Planet (i.e. the Planet~House/Sign in consideration) as with 50% Strength as shown below:

**Rule 2: The Strength & Applicability of Mutual Placement, Conjunction and Aspect are dependent of Direction of Motion and Speed of Planet/s in consideration.**

- 2 (a): Two or more Planets within a Sign are termed “Planets in Conjunction”. Both influence each other with 75 % to 100% Strength. Though, in general, influence strength is considered 100%.

- 2 (b): Planets in same Directions (Sign based) are termed as “Trine Planets” and influence each other with 75% Strength.
- 3 (c): Planet/s in the Opposite direction i.e. in the 7<sup>th</sup> House/Sign (Planets in Trine of the 7<sup>th</sup> House i.e. in 3<sup>rd</sup> and 11<sup>th</sup> of Source Planet) are termed of “Opposite Direction Planet/s” and influence each other with 50% Strength.
- 4 (d): Planets in Adjacent House/Sign are known as “Adjacent Planets”. These Planets influence each other with 20% to 90% Strength.
- 5 (e): Retrogression: This is will be discusses in separate Chapter. In short, Retrogression is a type of Direction. Astronomically, Planets always move in one Direction.

# Astrological Researches Group

## **Chapter: 4 ~ Retrogression (वक्रत्व) ©**

In Falitjyotish, some topics are much debatable, out of such topics ~ Retrogression (वक्रत्व) is one such. Astronomically, all Planets move in a fixed Direction on their fixed path around the Sun. But, when we see from Earth, visualization shows some different views also. Same way, Retrogression of Planets (as seen from Earth) is not an actual occurrence, but only an apparent phenomenon (आभासीयघटना/ दृश्य), where the Retrograde Planet/s appear to be Moving Backward.

As per BPHS:

वक्रानुवक्रा विकला मन्दा मन्दतरा समा।

चराचातिचरेति च ग्रहाणामष्टधा गतिः॥

अर्थात् ~ १. वक्रा, २. अनुवक्रा, ३. विकला, ४. मन्दा, ५. मन्दतरा, ६. समा, ७. चरा और ८. अतिचरा ~ ये आठ प्रकार की गति कही गई है।

- वक्रगति~जब ग्रह जिस राशि -विशेष में वक्री हो और वक्रत्व अवधि के दौरान उसी राशि-विशेष में रहे.
- अनुवक्र ~ जब ग्रह वक्रत्व अवधि के दौरान दो राशियों में भ्रमण करें.
- कुटिला ~ स्थिर ग्रह (गति शून्य)

In Nadi Astrology, while judging the strength & productivity of planets in a horoscope, Retrogression also needs special attention which influences the Intensity of Influence. Further, Retrogression of three types:

- 7 Within Sign (वक्रगति)\*
- 8 Involves Adjacent Signs (अनुवक्र)\*
  - 2 (1) With Forward Sign\*
  - 2 (2) With Backward Sign\*

To analyse Retrogression, first of all, always check... during its Retrogression period... will the concerned Planet transit in Same Sign (i.e. Sign in Consideration) or will transit in Two Sign (i.e. Retrogression would occur in Two Sign). In both cases, note the following points:

- (i) @ Starting Point, say "A", of Retrogression: Sign & Degrees

(ii) @ Ending Point , say “B”, of Retrogression: Sign & Degrees

Now, check if there are Planet/s in between Points “A” & “B” in Natal Horoscope. One may apply this rule in D-Charts also. If Planet/s is present there... those will more prone to experience the good/bad results of transiting Retrograde Planet.

### ***What a Retrograde Planet Indicates?***

***Answer: A Retrograde Planet indicates Fast execution of Karma Phala\*.***

*Retrogression impact should also be studied under “Triple Transit Theory” as proposed by me in one earlier article posted in “Astrological Researches Group” on Face book with Title:*

*“Triple Transits- A forbidden Predictive Tool”*

<https://www.facebook.com/download/preview/1388218624774530>

*Some important points:*

Retro duration of Planets:

- Sun & Moon never go Retrograde.
- Rahu & Ketu always remains Retrograde.
- Inner Planets:
- Mercury ~ Approx. 3 times a year goes Retrograde for maximum duration of 22-24 Days.
- Venus ~ She goes less Retrograde in compression of Mercury i.e. 42 days approx, once in two years.
- Outer Planets:
- Mars ~ He goes Retrograde for Approx 2 & ½ month i.e. 80 Days approx, once in two years.
- Jupiter ~ He goes Retrograde for 4 Months duration i.e. 120 days approx, once every year.
- Saturn ~ He goes Retrograde for 4 & ½ months duration i.e. 140 days approx, once every year.
- Exact stationary duration of should be checked carefully... which in real remains for Hour or 1-2 day maximum according to Planets.

## **Chapter: 5 ~ Sign-Exchange (राशि-परिवर्तन) ©**

Nadi Astrology is one of the best Schools Of Thought on Astrology (Jyotisha). There are many secret fundamental/rules in Nadi Astrology which have proven their importance not only for Nadi Astrology, but also helpful in other School of Thoughts of Jyotisha. In earlier Chapters, some very important fundamentals have been discussed. In continuity to the same this Chapter I will share my views on another very important Fundamental of Nadi Astrology ~ “Sign Exchange (राशि-परिवर्तन)”.

***What is Sign-Exchange?***

***Whenever Planet “A” sits in the Sign of Planet “B” and Planet “B” sits in the Sign of Planet “A” ~ this condition is known as “Sign-Exchange” between Two Planets.***

***\*This rule can also be applied to Exchange among Planets at Nakshatra Level i.e. if Planet “A” sits in Nakshatra of Planet “B” and Planet “B” sits in Nakshatra of Planet “A” ~ this Condition is Known as “Nakshatra-Exchange” between Two Planets.***

*When we look on Sign-Exchange, merely there seem two Planets are going to their own Signs. Further, we know, in Nadi Astrology, instead of houses, each planet’s karkatvas have been given utmost importance. So, a special attention should be given to Karkatavas to the Planets involved in Sign-Exchange. Sign Exchange indicates some very Strong connectivity between both Planets’ Karkatvas by means of Karmic Bondage*

### Sample chart: 1

**Astrological Researches Group**

Pisces	<span style="border: 1px solid blue; border-radius: 50%; padding: 2px;">Saturn</span> Aries	Taurus	Gemini
Aquarius	<b>Sign Exchange between Saturn &amp; Mars: This situation indicates some strong Karmic bondage between Karktavas governed by Saturn &amp; Mars.</b>		Cancer
<span style="border: 1px solid blue; border-radius: 50%; padding: 2px;">Mars</span> Capricorn			Leo
Sagittarius	Scorpio	Libra	Virgo

**Sign Exchange**

Sign-Exchange analysis needs special attention. We all know that, a Planet in own Sign is always considered Powerful. With Sign-Exchange, when a Planet is considered relocated in his/her own sign... is also considered Powerful. But, this needs further scrutiny to judge the final results.

**In above example Chart: 1,** there is Sign Exchange between Mars & Saturn. Originally, Saturn is in its sign of debilitation i.e. Aries and Mars is in its sign of exaltation i.e. Capricorn. But, after sign-exchange, Mars would be assumed in Aries, i.e. its own Sign. Here, after sign-exchange, Mars loses its exaltation status. While, after sign-exchange, Saturn would be assumed in Capricorn Sign, i.e. Own Sign. So, Saturn will gain more in compression of Mars, after Sign-Exchange.

Additional factors which influence the result of Sign-Exchange are:

- Check the Mutual Placement of Planets (involved in Sign-Exchange) before applying the Sign-Exchange Rule. This will be helpful for know the Distance between Planets.

- Check the Planet/s in Conjunction of both Planets, Before & After application of the Sign-Exchange Rule and note down all information separately.
- Now, check the *Friendship-Relation* of Planet/s in Conjunction of both Planets, Before & After application of the Sign-Exchange Rule.
- Initially, after Sign-Exchange... both Planets would be considered powerful, being considered in own Signs. Follow next step.
- Now, Check the Change in Planetary Status i.e. Original condition of Planet (i.e. before Sign-Exchange) like, from Exaltation, Debilitation, Enemy Sign, and Friendship etc with respect to Own Sign Placement (i.e. After Sign Exchange). Note, in above Example Chart: 1, Saturn is in gain while Mars is in loss (though very little).

Sample Chart: 2 (Below)

In this Chart, there is Sign Exchange between Sun & Mars. Sun is in its Sign of Exaltation i.e. Aries, while Mars is in its Friendly Sign ~ Leo. After Sign Exchange, Sun goes to own Sign Leo, but this loses his status of Exaltation. But, Mars gains from this Sign Exchange because Mars shifts from Friend's Sign to Own Sign.

## Astrological Researches Group

Pisces	Aries <span style="color: red; border: 1px solid red; border-radius: 50%; padding: 2px;">Sun</span>	Taurus	Gemini
Aquarius	Sign Exchange between Sun & Mars: Before Sign Exchange: Sun is in its Exaltation Sign, while Mars is in its Friend's Sign. **Sign Exchange**

- Check the Change in result after Sign-Exchange w.r.t. Planet/s in conjunction + new Planets.

Example Chart: 3

Pisces	Jupiter Aries	Taurus	Gemini
Aquarius	<p>Sign Exchange between Sun &amp; Mars</p> <p>Planetary Condition before Sign exchange:</p> <p>Aries Sign: Jupiter + Sun</p> <p>Leo Sign: Rahu + Mars</p> <p>Planetary Condition after Sign Exchange:</p> <p>Aries Sign: Jupiter + Mars</p> <p>Leo Sign: Rahu + Sun</p>		Cancer
Capricorn			Leo Mars Rahu
Sagittarius	Scorpio	Libra	Virgo

Sign Exchange

In above Example Chart: 3

If we look at planetary conditions before Sign-Exchange:

- Aries Sign: Sun + Jupiter
- Leo Sign: Mars + Rahu

*Points to note: Sun is Exalted and in conjunction of Jupiter, a benefic Planet. Mars is in friend's Sign but in conjunction of its enemy... Rahu. So, Mars is under affliction of Rahu.*

Now, we look at planetary conditions after and after Sign-Exchange:

- Aries Sign: Mars + Jupiter
- Leo Sign: Sun + Rahu

*Points to note: Mars joins Jupiter, a benefic, in its own Sign~ Aries. So, Mars gains and become more Powerful in own Sign under Jupiter's benefic influence. Now, Sun joins Rahu in Leo Sign but here Sun loses his Exaltation Status and also comes under Rahu's influence.*

Important points to remember:

- Always, check the:

\* Direction of Sign (राशि की दिशा),

\* The Direction of Motion of the planet/s- Direct, Retrograde or Stationary (ग्रह की गति की दिशा - मार्गी, वक्री या स्थिर),

\* Planetary Speed (ग्रह की गति/वेग) and

\* Distance between two Planets (दो ग्रहों के बीच की दूरी).

*Note: All Planets transit in their own fixed Paths around the Sun and they never meet to each other in real. But, when we see on them from Earth, it seems like ...all Planets are moving on same Path but that's only Visual Impact.*

*This will further influence the results.*

*Like, in above sample chart:*

*Suppose, Rahu is at 14 Deg and Mars at 9 Deg.... here Rahu, being Retrograde will apply its aspect on Mars and Mars will also apply its aspect on Rahu. This way, Mars and Rahu both will influence each other.*

*Suppose, if Mars is at 24 Deg...then, there will no/little influence of Rahu on Mars.*

*Suppose, Sun is at 28 Deg and Jupiter is at 19 Deg... Sun will enjoy the benefic result of Exaltation as well of Jupiter's Conjunction.*

*Here, after Sign exchange, though Sun losses its Exaltation status, but will remain out of reach of Rahu (at 14 Deg) while Sun at 28 Deg because Sun and Rahu both, seem to separating from each other.*

*Suppose, if Sun is at 9 Deg, then after Sign-Exchange, Sun would have to face the impact of Rahu's affliction.*

- Check both Signs (Signs involved in Planetary Exchange) for their Elementary Nature i.e. Fiery, Airy, Water or Earth.
- Check for Planet's Active & Passive Signs (who are involved in Sign-Exchange).

## **Chapter: 6 ~ Micro Progression ©**

In earlier Chapters, some very important Fundamentals have been discussed. In continuity to the same... this Chapter I will share my views on another very important Fundamental of Nadi Astrology i.e. ~ “Progression (प्रगमन)”.

What is Progression?

Progression can be defined as a Movement or Development toward a Destination or a more Advanced State, especially gradually or in stages.

***\*This rule can also be applied to all Planets. This will be discussed in Advance Classes.***

I will start with Progression of Jeeva Karka (i.e. Life governing) Planets, because without Life/Longevity, every other Calculation would be Inattentive (जीवन के बिना अन्य सब बेमानी है ). As per Nadi Astrology, Jupiter is Karka of Male Nativity and Venus is Karka of Female Nativity.

This means, all matter related to Male Nativity in astrological prospective should be checked with Jupiter. Same way, all matter related to Female Nativity in astrological prospective should be checked with Venus. This is the basic fundamental of Nadi Astrology.

*Now question arises, How to logically use Jeeva’s Progression in practical horoscope analysis?*

*Progression of any Planet should be analysed at two levels i.e.:*

1. Macro Level &
2. Micro Level

*As per Nadi Astrology fundamentals, each Planet’s Progression- Duration per Cycle per Sign/House..is according to time taken by each individual Planet to complete One Cycle of Whole Zodiac. This is known as Macro Progression. For example, Jupiter takes 12 years (approx) to complete one Cycle Transit of Whole Zodiac. So, Jupiter’s Progression per Cycle is of 12 Years duration.*

*Note: Venus is Karka of Female Nativity and its Progression per Cycle is also of 12 Years duration.*

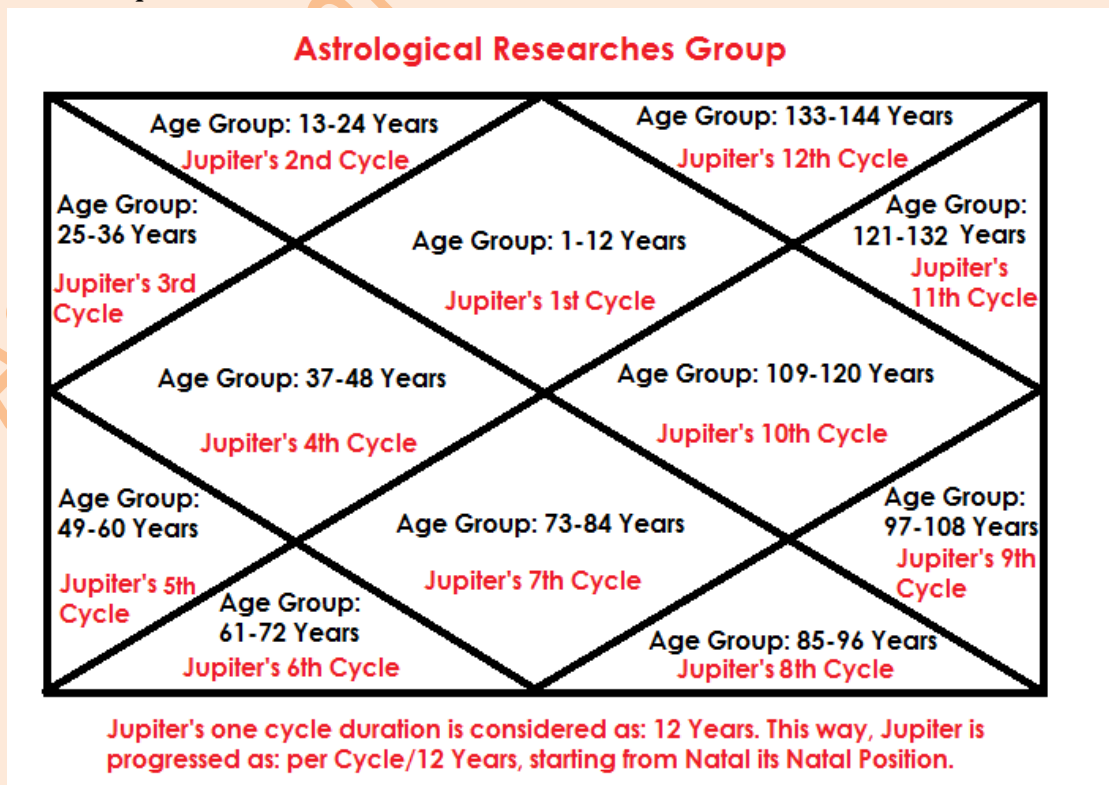

This has been discussed in previous Chapter.

Now, next question, during Progression in a particular Sign for a Specific Cycle... Jeeva Karka Planet will Progress there for 12 years duration. Then What about other Signs/Houses? Here, one should use "Micro Progression Method". Under this methodology, Jeeva Karka Planet is further Progressed in different Signs/Houses with respect to its 12 years duration's Cycle position.

*Caution: Do not Mix Progression with Transit. Both are different.*

1. Macro Level Progression: Per Sign/House as per current Cycle of Progression. This was discussed in detail, in previous session. This is one of the most important rules to check for Event's Time Frame at Macro/Broad Level.

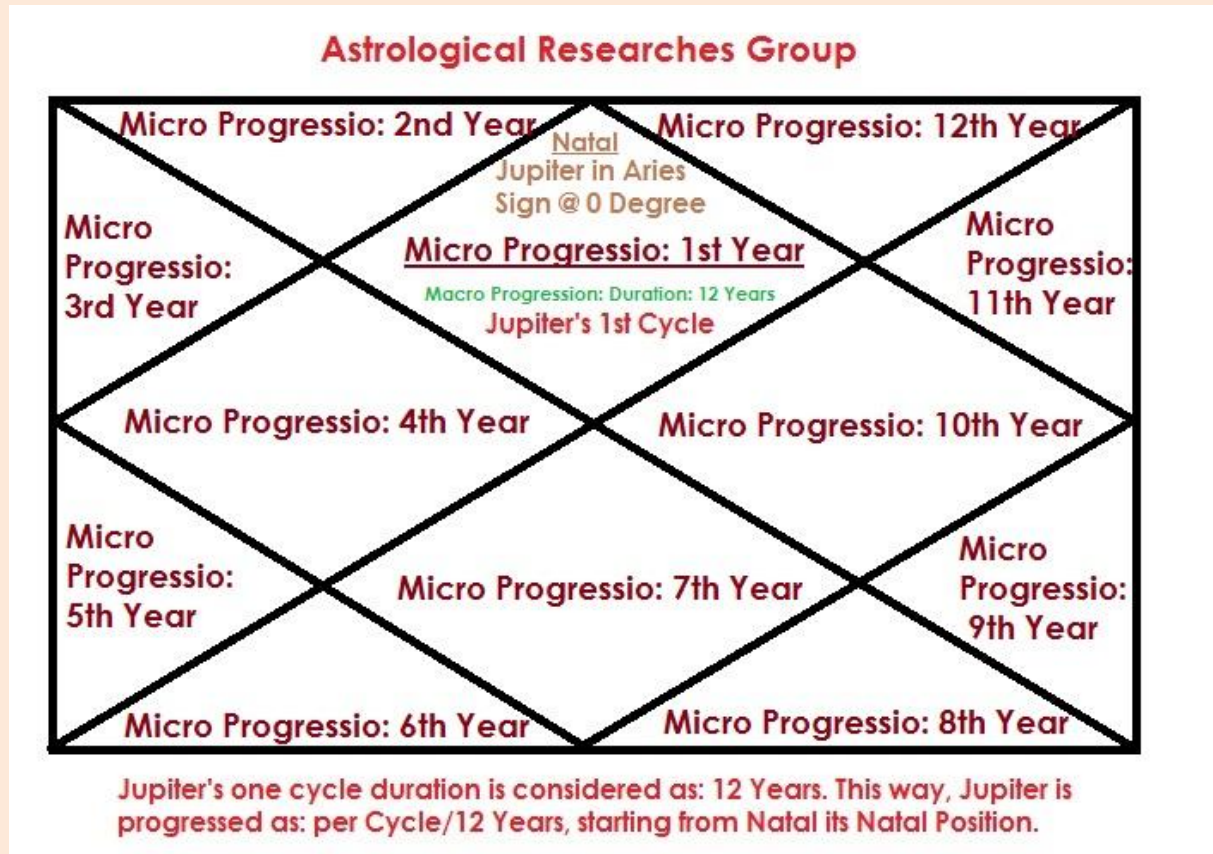

See Sample chart ~1

## 2. At Micro Level:

See below Chart ~ 2 for Micro Level Progression for 1<sup>st</sup> Cycle of Jupiter.

Next important question arises:

How Micro Progression Results?

## **Chapter: 7 ~ Saturnine Progression ©**

In previous Chapter, I have shared views on Progression of JeevaKarka Planets: Jupiter & Venus. Both Planets, depending upon Gender of Nativity i.e. Male ~ Jupiter & Female ~ Venus, Progressed for 12 years for 30 Degrees.

***Jeeva Karka Planet's Progression basically deals with the conditions of Living along with Longevity issues.***

As per Hindu Mythology, Jeeva has to do Karma and according to Phala of Karma, Jeeva automatically keep on getting engaged into new Karmas. ***As, already told that ~ Saturn governs all kind of Karmas.... to understand about Karmas and KarmaPhala's possible results we need to Progress ~ Saturn.*** Saturn takes 30 years (approx.) to complete one cycle of Zodiac. So, Saturn is Progressed for 30 Degrees in 30 Years duration.

*Now question arises, How to logically use Saturnine Progression in practical horoscope analysis?*

*Progression of any Planet should be analysed at two levels i.e.:*

3. Macro Level &
4. Micro Level

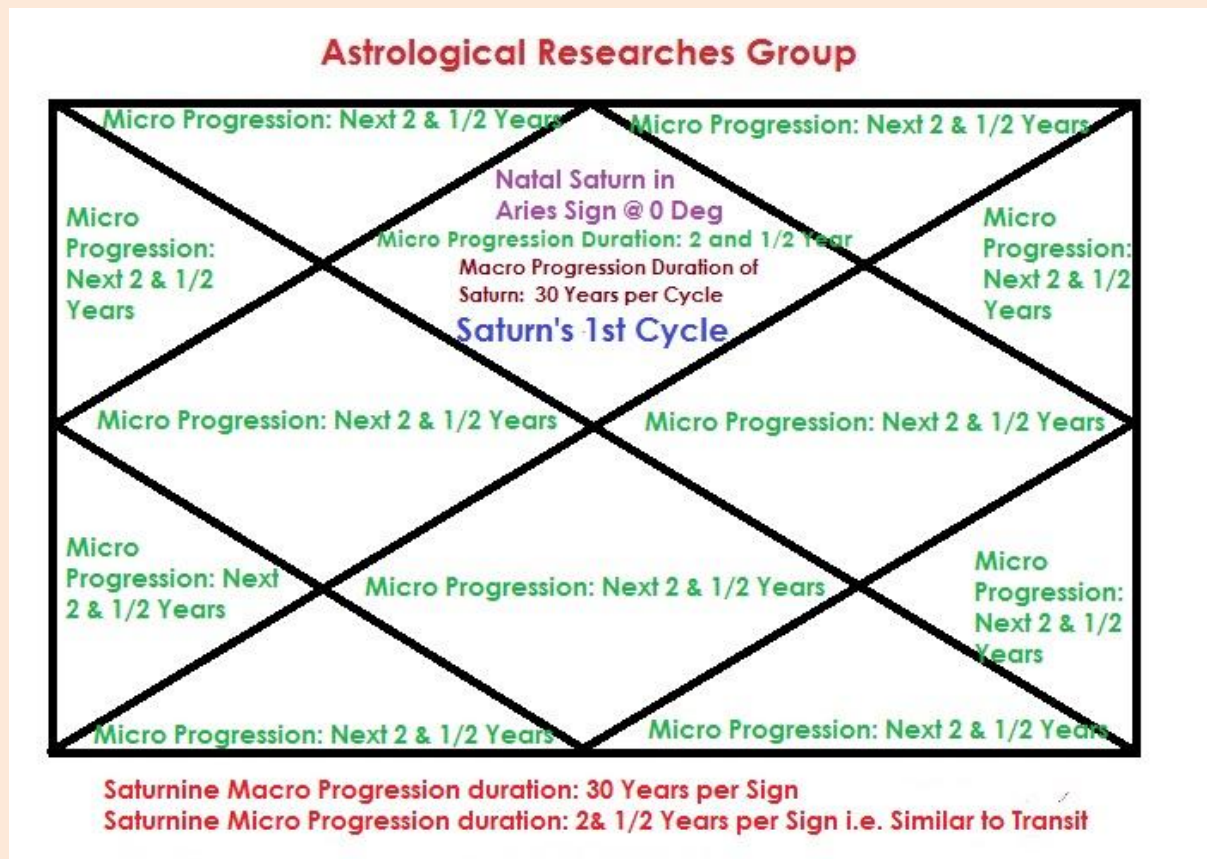

*As per Nadi Astrology fundamentals, each Planet's Progression- Duration per Cycle per Sign/House..is according to time taken by each individual Planet to complete One Cycle of Whole Zodiac. This is known as Macro Progression. For example.. Saturn takes 30 years (approx) to complete one Cycle Transit of Whole Zodiac. So, Saturnine Progression per Cycle is of 30 Years duration.... this is known as Marco Level Progression.*

Now, next question, during Progression in a particular Sign for a Specific Cycle... Karma Karka Planet will Progress there for 30 years duration. Then What about other Signs/Houses? Here, one should use "Micro Progression Method". Under this methodology, Karma Karka Planet is further Progressed in different Signs/Houses with respect to its 30 years duration's Cycle position.

3. Macro Level Progression: Saturnine Progression per Sign/ House for 30 Years duration per Cycle of Progression governs Age Group: From 1<sup>st</sup> Day (1<sup>st</sup> Year) to age of 30<sup>th</sup> Years. The 2<sup>nd</sup> Cycle will govern age from 31<sup>st</sup> Year to 60<sup>th</sup> Year & so on.
4. At Micro Level: Similar to Transit for 1<sup>st</sup> Cycle (First 30 Years age span). In 2<sup>nd</sup> Cycle i.e. age span (31<sup>st</sup> year to 60<sup>th</sup> year)... Macro Progression will get shifted into next Sign. And Micro Progression for each 2&1/2 Year will start from there in successive houses.

## **Chapter: 8 ~ Rahu's Progression ©**

In previous Chapters, I have shared views on Progression of:

Now, in this Chapter, I will share my views on Rahu's Progression. Rahu is known as KaalPurusha or Kaal in Nadi Astrology. One side, Rahu is Karka of Vastness; other side also acts the Kaal for Jeeva i.e. the Cause for Death of Jeeva. We all know, if there is Birth... then Death is also there... this is Birth & Death Cycle. Now, to understand the Progression of Rahu

Rahu governs all kind of Material deeds, interest & growth in them and Ending of Material world Life.

Now question arises, How to logically use Rahu's Progression in practical horoscope analysis?

Progression of any Planet should analyse at two levels:

1. Macro Level &
2. Micro Level

As per Nadi Astrology fundamentals, each Planet's Progression- Duration per Cycle per Sign/House is according to time taken by each individual Planet to complete One Cycle of Whole Zodiac. This is known as Macro Progression. Rahu always Progressed in previous Sign, i.e. Retrograde.

Rahu takes 18 years (approx) to complete one Cycle "Transit" of Whole Zodiac. So, Rahu's Progression per Cycle is of 18 Years duration.... this is known as Marco Level Progression of Rahu.

Rahu's Progression per Sign (or 30 Degs.) for 18 Years duration per Cycle of Progression start from Age Group:

- The 1<sup>st</sup> Cycle: This cycle governs age period from 1st Day to age of 18th Years.
- The 2nd Cycle: This cycle will govern age period from 19th Year to 36th Year.

- The 3<sup>rd</sup> Cycle: This cycle will govern age period from 37th to 54th Year & so on.

Further, Macro Progression of 1st Cycle (First 18 Years age span) will continue up to next 30 Degs (in back Sign as Rahu always Transit Retro). In 2nd Cycle i.e. age span (19th year to 36th year)..... Macro Progression will get shifted into next Sign (or next 30 Degs) & so on.

Now, next question, during Progression in a particular Sign for a Specific Cycle... Kaal Karka Planet: Rahu will Progress there for 18 years duration. Then What about other Signs/Houses? Here, one should use "*Micro Progression Method*".

Under this methodology, Kaal Karka Planet, Rahu is further Progressed in Two ways:

1. Within Same Sign: Within same Sign (or 30 Deg) of Each Cycle for 18 Years duration.... Rahu is Progressed 1 Deg 40 Min per Year for total duration of 18 Years i.e.  $1 \text{ Deg } 40 \text{ Min} * 18 = 30 \text{ Degs}$ . Here, Progression impact on Natal Planet/s present within Sign (30 Degs) should be judged carefully.
2. For other Signs/Houses: Rahu is Progressed for 1 & ½ years duration in each Signs/Houses (i.e. 12 Signs/Houses) with respect to its Current Cycle position i.e.  $1 \text{ & } \frac{1}{2} \text{ Years per Sign} * 12 \text{ Signs} = 18 \text{ Years}$ . This method should be used only after a good practice else avoid this.

Caution: Do not Mix Progression with Transit. Both are different.

## **Chapter: 9 ~ Ketu's Progression ©**

In previous Chapters, I have shared views on Progression of:

Moksha Karka Ketu: Ketu is of mysterious nature Planet and also have very different features/qualities among the Nava Grahas. Ketu's Progression needs special attention.

As per Hindu Mythology, Jeeva has to do Karma and according to Phala of Karma, Jeeva automatically keep on getting engaged into new Karmas. If there is Start, then End is also somewhere:

- Jupiter/Venus governs the Beginning of Life or Existence of Jeeva
- Saturn governs the Karma done by Jeeva&
- Rahu governs all kind of Material deeds, interest & growth in them and Ending of Material world Life.
- Ketu governs Moksha i.e. a stage where no Karma Phala pending. Now, we have to understand here... Life Cycle of "Birth & Death" will continue till Jeeva do not get free from all kind of Karmas.
- Jeeva (Jupiter) approaches Kaal (Rahu) &
- Karma (Saturn) approaches Moksha (Ketu)

Now question arises, How to logically use Ketu's Progression in practical, horoscope analysis?

Progression of Ketu should be analyzed at two levels:

1. Macro Level &

2. Micro Level

As per Nadi Astrology fundamentals, each Planet's Progression- Duration per Cycle per Sign/House..is according to time taken by each individual Planet to complete One Cycle of Whole Zodiac. This is known as Macro Progression. Ketu always Progressed in previous Sign, i.e. Retrograde.

For example..Ketu takes 18 years (approx) to complete one Cycle "Transit" of Whole Zodiac. So, Ketu's Progression per Cycle is of 18 Years duration.... this is known as Marco Level Progression of Ketu.

Ketu's Progression per Sign (or 30 Degs.) for 18 Years duration per Cycle of Progression start from Age Group:

- The 1<sup>st</sup> Cycle: This cycle governs age period from 1st Day to age of 18th Years.
- The 2nd Cycle: This cycle will govern age period from 19th Year to 36th Year.
- The 3<sup>rd</sup> Cycle: This cycle will govern age period from 37th to 54th Year & so on.

Further, Macro Progression of 1st Cycle (First 18 Years age span) will continue up to next 30 Degs (in back Sign as Rahu always Transit Retro). In 2nd Cycle i.e. age span (19th year to 36th year)..... Macro Progression will get shifted into next Sign (or next 30 Degs) & so on.

Now, next question, during Progression in a particular Sign for a Specific Cycle... Moksha Karka Planet: Ketu will Progress there for 18 years duration. Then What about other Signs/Houses? Here, one should use "*Micro Progression Method*".

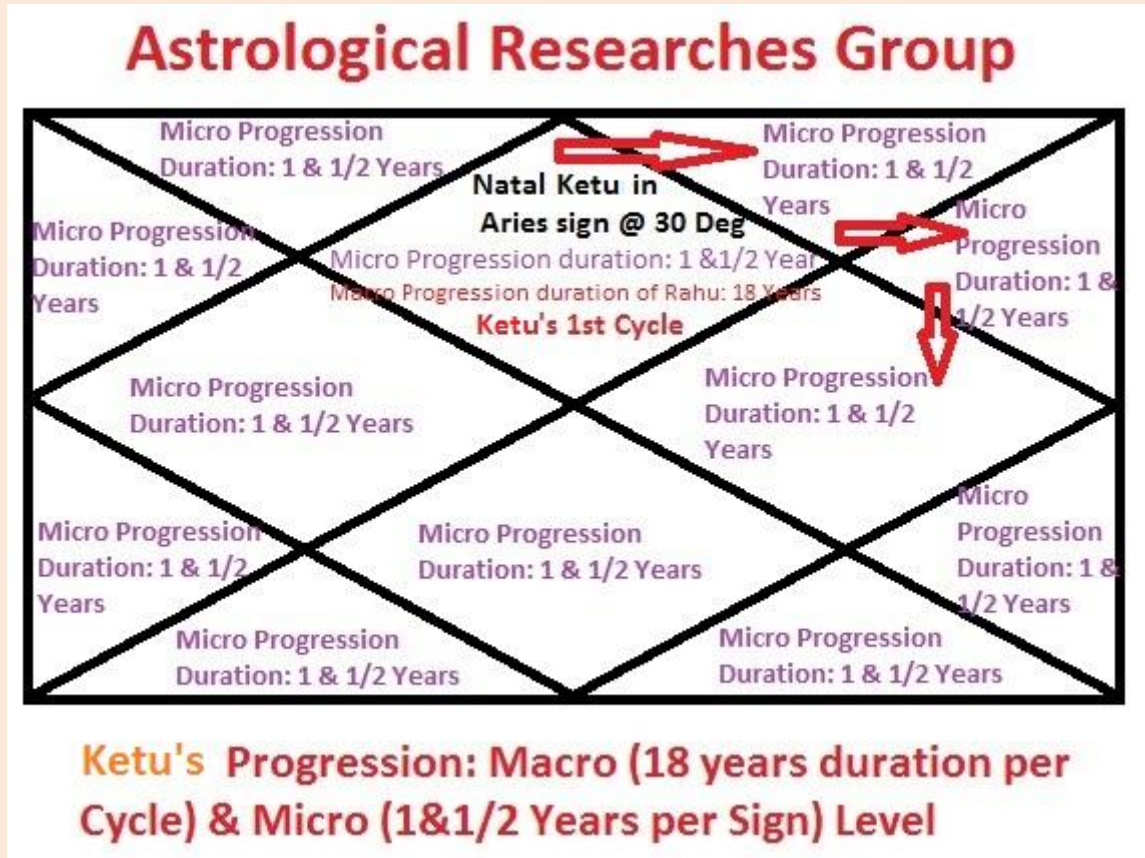

Under this methodology, Moksha Karka Planet...Ketu is further Progressed in Two ways:

3. Within Same Sign: Within same Sign (or 30 Deg) of Each Cycle for 18 Years duration.... Ketu is Progressed 1 Deg 40 Min per Year for total duration of 18 Years i.e.  $1 \text{ Deg } 40 \text{ Min} * 18 = 30 \text{ Degs}$ . Here, Progression impact on Natal Planet/s present within Sign (30 Degs) should be judged carefully.
4. For other Signs/Houses: Ketu is Progressed for 1 & ½ years duration in each Signs/Houses (i.e. 12 Signs/Houses) with respect to its Current Cycle position i.e.  $1 \text{ & } \frac{1}{2} \text{ Years per Sign} * 12 \text{ Signs} = 18 \text{ Years}$ . This method should be used only after a good practice else avoid this.

Caution: Do not Mix Progression with Transit. Both are different.
